## Welcome Message from President of CoR and MyRAD

Welcome to the Malaysian Congress of Radiology 2024!

This year, we're putting the spotlight on the theme "Beyond the Report: Interplay of Language and Radiology." We're excited to explore into the world of Natural Language Processing (NLP) and its potential to shake up how we do things in radiology.

NLP is a game-changer. It has the power to take those standardized reports we're used to and turn them into data that machines can understand. But it's not just about making things machine-readable; NLP can actually interpret free text using context clues. This means it adds a whole new layer to how we practice radiology, moving us beyond the confines of traditional reporting methods.

Join us for an eye-opening exploration of NLP's applications in radiology. We'll walk you through how this technology is revolutionizing our field, making tasks more efficient and precise. From improving diagnostic accuracy to smoothing out our day-to-day workflows, NLP is proving to be an invaluable tool.

Join us for an insightful overview and some hands-on experience with NLP. Let's discover together how this technology is changing the game in radiology and why it's so relevant to our everyday clinical practices. Welcome to a congress that's all about embracing innovation and pushing the boundaries of what's possible in our field!

## Welcome Message from Malaysian Congress of Radiology 2024 Organising Chair

Warmest greetings to all!

Welcome to the Malaysian Congress of Radiology 2024!

This year, we are diving into the theme “Beyond the Report: Interplay of Language and Radiology,” exploring how Natural Language Processing (NLP) is revolutionizing our field by converting reports into machine-readable data. Join us to discover NLP’s transformative impact on diagnostic accuracy and clinical workflows, and take part in insightful sessions showcasing its applications in radiology.

We invite you to immerse yourself in hands-on experiences with NLP as well as explore the best practices in radiology reporting. Radiology trainees, do not miss out on our exclusive preparation sessions tailored to equip all of you for the Masters examination. Additionally, there will be opportunities for all participants to showcase research and insights through the Best Free Paper Oral Presentation and Best Poster Presentation competitions, where prestigious prizes await.

Together, let us embark on this enlightening journey to examine the vast potential of NLP and its direct relevance to our everyday clinical practices. The Organising and Scientific Committee has meticulously curated an informative program, designed to stimulate discussion, foster learning, and inspire innovation.

Welcome to a congress dedicated to the cutting edge of imaging and pushing the boundaries of radiology.

**TOP 100  
ABSTRACTS  
WILL BE PUBLISHED  
IN JUMMEC**

**CALL FOR  
ABSTRACTS**

The scientific committee welcomes the submission of scientific abstracts. Authors are invited to submit abstracts in the following areas of interest:

**ABSTRACT SUBMISSION DEADLINE:**

**30th April 2024**

1. Body Imaging
2. Paediatrics
3. Emergency
4. Interventional Radiology
5. Neuroradiology
6. Musculoskeletal
7. Chest Imaging
8. Head & Neck
9. Oncology
10. Cardiac Imaging
11. Women's (Breast/Gynae) Imaging
12. Molecular Imaging

**Abstract Guidelines:**

All abstracts are to be submitted online. Final forms of presentation can be in any of the following format:

1. Oral Presentation (6 minutes + 2 minutes Q&A with ppt slides)
2. E-Poster Presentation (No live presentation onsite)
3. Live Poster Presentation (3 minutes live presentation with your e-poster)

There is no limit to the number of abstracts you may submit, but you should not submit on the same study/data set to be presented in more than one format.

All abstracts are to be reviewed by the Scientific Committee. The committee reserves the right to decide on the final form of presentation.

The presenting author of successful abstracts must complete his/her registration for the congress as a delegate before the 25th June 2024 to present his/her work during the congress.

- Abstract must be submitted in English.
- The font of the abstract should be in Calibri, 12 pt and double spacing.
- No encore abstracts are allowed.
- Please specify the abstract title.
- The title must be in capital letters and is limited to a maximum of 640 characters.
- Please provide the details of the co-authors (names, affiliations). Ensure that all author information is included and entered correctly.
- Please provide 3-5 keywords for your abstract.
- Please provide the abstract body text. The abstract body is limited to a maximum of 250 words for studies/research which is approximately 1600 characters. For case report, the abstract body is limited to 150 words.
- The body must be divided into each:  
Format of content to follow:

Studies/ Research	Case Report
Background	Introduction, Report and Conclusion all in one paragraph.
Methodology	
Results	
Conclusion	

-  malaysiancongressofradiology.com
-  014 - 923 6018
-  abstract@malaysiancongressofradiology.com

The Objective and Conclusion need to be consistent with those in the main text and should use the same wording. The results should present the main outcomes of the study using specific numerical data (e.g., absolute numbers and/or rates) with appropriate indicators of statistical uncertainty, such as 95% confidence intervals or p values. P values should never be presented alone without the actual data that are being compared. Do not use reference citations in the abstract. Abbreviations should be minimized and, if used, must be defined within the abstract by full terminology followed by abbreviation in parenthesis.

For medical terms such as proper nouns, generic names of medicines, and units of measurement, use the original term. The use of acronyms and abbreviations is discouraged and should be kept to a minimum. When used, they are to be defined where first used, followed by the acronym or abbreviation in parentheses. Measurements and laboratory values should be in accordance with the International System of Units (SI).

Ensure correct use of the terms sex (when reporting biological factors) and gender (identity, psychosocial or cultural factors), and, unless inappropriate, report the sex or gender of study participants, the sex of animals or cells, and describe the methods used to determine sex or gender. If the study was done involving an exclusive population, for example in only one sex, authors should justify why, except in obvious cases (e.g., prostate cancer). Authors should define how they determined race or ethnicity and justify their relevance.

The names and locations (city and state or country) of manufacturers of equipment and non-generic drugs should be given.

Ensure that all changes, corrections, and proofreading have been carried out before submission.

### Notification of Acceptance

- Review of abstracts will take 2 weeks from the abstract submission deadline.
- All abstracts will be reviewed by the Scientific Committee. The Committee reserves the right to select the abstracts and assign the sessions and final format of presentation. The decision of the Committee is final.
- Results will be announced by 31st May 2024.
- All accepted abstract presenting authors MUST complete his/her registration for the congress as a delegate before the 25th June 2024 to present his/her work during the congress.
